

# Making Our Park a Reality!

## ABOUT THE PARK

Hamiltonban Community Park occupies three acres in the South Mountain foothills and provides a clear view of the mountain vista. The park is ADA-compliant and is grant-funded, and is being built in three phases. It opened to the public with the completion of Phase 1 in November 2017.

**PHASE 1** included the park's core elements: a picnic pavilion, grills, picnic tables (two of which are wheelchair accessible), train-themed play equipment, benches, five educational panels, lighted flagpole, wooden bridge, and informational kiosk.

**PHASE 2** will include completion of a 1/4 mile loop walking path with five adult fitness challenge stations, swing set, natural play area, demonstration pollinator meadow, and interpretive signage. The second phase will begin construction in Spring/Summer 2018.

**PHASE 3** will involve further extension of the walking path, rain garden enhancements, and roadside fencing.
